SLOANE HOLTBY

sh62489@utexas.edu • (403) 700-1486
github.com/sloholt • linkedin.com/in/sloane-holtby• Austin, TX

EDUCATION

The University of Texas at Austin, McCombs School of Business May 2027
Master of Science, Business Analytics | GPA: 3.67
- Advanced Coursework: Deep Learning & ML, Optimization, Unstructured Analytics, Information Management

McGill University | Montreal, Canada Jun 2026
Bachelor's of Arts | GPA: 3.55
- Major in Statistics, Major in Software Engineering, Minor in Economics, Varsity Volleyball Athlete

TECHNICAL SKILLS

- Data & Analytics Tools: Excel, ArcGIS, Azure, AWS, SQL, R Shiny, Snowflake
- Programming Languages: R, Python, SQL, Java, HTML/CSS, TypeScript

WORK EXPERIENCE

McGill University Department of Math & Statistics - Montreal, Canada
Research Student May 2025 - Sep 2025
- Investigated intra-team salary inequality as a driver of NHL performance across 10 seasons using Poisson GLM and dynamic GMM models; preprint at https://sloholt.github.io/NHL-Salary-Inequality-Analysis/
- Built an interactive dashboard using Python and Plotly Dash, visualizing salary distribution and model outcomes across 32 NHL teams and 10 seasons at https://nhl-salary-inequality-analysis-dash.onrender.com/

LodgeLink - Calgary, Canada
Full Stack Developer Intern May 2024 - Aug 2024
- Researched, implemented and documented 3+ Developer Experience improvements including real-time code analysis via SonarLint and in-editor Azure SQL tooling, reducing code smells and cutting development time
- Presented business case to Senior Management citing 10 times cost escalation per defect at later development stages, linking DevEx investment to faster time-to-market, lower infrastructure costs, and reduced security risk

PROJECTS

Synechron Industry Collaboration Jan 2026 - Apr 2026
- Collaborated with Synechron to develop a geospatial dashboard prototype for bank branch and ATM network optimization, integrating demographic, zoning and transportation data into an R shiny dashboard and ArcGIS pipeline to surface expansion recommendations across 3 Canadian cities

Note: Due to NDA restrictions, code samples and project deliverables are not available on my GitHub page

Olameter Industry Collaboration Sep 2025 - Dec 2025
- Partnered with Olameter to build a reproducible validation framework comparing simulated geothermal heat pump outputs against real-world meter data across 4 analytical dimensions to identify model optimization opportunities

Note: Due to NDA restrictions, code samples and project deliverables are not available on my GitHub page

LEADERSHIP AND COMMUNITY INVOLVEMENT

CodeJam McGill - *President,* Montreal, Canada Apr 2023 - Apr 2026
- Spearheaded annual CodeJam Hackathon, leading a 20-person team across Sponsorship, Finance, Web Dev, Logistics, and Marketing to deliver a premier coding event for 400+ participants and sponsors

ADDITIONAL INFORMATION
